

Start Your Accounting Career with Our Co-op Program!

Are you a co-op student looking for a great opportunity in public practice? We're hiring for the Winter/Spring 2027 term!

Join our team for an eight-month placement where you'll get hands-on experience and a real feel for the industry. If you've taken your introductory accounting and tax courses, are a great communicator, and are eager to learn, you're the ideal candidate.

This isn't your typical co-op. From day one, you'll work directly with clients and take files from start to finish. You'll learn how to prepare compilations, handle personal and corporate taxes, and assist with tax planning.

We're proud of our strong co-op program, which has helped many students launch their careers. In fact, many of our former co-ops have returned to become supervisors and managers at our firm. This could be you!

Qualifications

- Must be an accounting major
- Must be enrolled in a post-secondary co-op program
- Introductory accounting/tax courses completed
- Proficient in Microsoft Excel

To apply, please send in your cover letter, resume, and a copy of your post-secondary transcripts.
